

# Maharani Lakshmi Ammanni College for Women

(Permanently affiliated to Bangalore University)

Re-accredited with 'A' Grade by NAAC

Recognised as 'College of Excellence' by UGC

Creating Pathways  
for a Bright Future

MAHARANI LAKSHMI AMMANNI  
COLLEGE FOR WOMEN

No. 63/5, III Main Road, IISc Post,  
Bangalore - 560 012, KARNATAKA.

☎ 080-2334 9311 ✉ [mlacw@mlacw.org](mailto:mlacw@mlacw.org)

[mlacw.org](http://mlacw.org)

Dr. K N V Sastri established Maharani Lakshmi Ammanni College for Women in 1972 with the main objective of empowering women through education. Dr. M N Mahadevan and Sri T S Rajam joined Dr. K N V Sastri in espousing the cause of women's education. Having started with just 12 students, the institution has carved a niche for itself among educational institutions in Bangalore and has transcended all boundaries in various areas of human pursuits with a current strength of over 4000 students.

MLACW is a gateway to an ambience of holistic and value-based learning. It provides a vibrant academic environment with emphasis on cultural and social diversity. *Education for character formation* is the goal of the institution.

*The end of all education must be the beginning of character - Mahatma Gandhi*

## Curriculum & Evaluation

Being an affiliated institution, the stipulations of the Bangalore University concerning curriculum and evaluation are followed. Formal classroom sessions are supplemented with guest lectures by experts from the industry and academia. Seminars, workshops and panel discussions are arranged on various themes in order to give a professional dimension to education. The evaluation system provides for continuous evaluation to monitor performance and enables feedback to students for regular improvement. The evaluation process takes into account class participation, home assignments, written examinations, term papers and course projects. State-of-the-art infrastructure facilitates innovative teaching and therefore enriching learning experiences for students. Students are encouraged and provided guidance for CET/CPT/CLAT examinations

### Research Centre

The Research Centre set up by Maharani Lakshmi Ammanni College recognized by Bangalore University offers Ph.D program in Biotechnology with competent staff members as research guides. The research centre is fully equipped with state-of-the-art laboratories, library and computer systems with broadband internet and Wi-Fi facility. Major and minor research projects funded by University Grants Commission are facilitated in the research centre. The thrust areas of Research are Cancer Biology, Diabetes, Database Development, Endocrinology, Gerontology, In-silico Biology, Neurophysiology.

**Entrepreneurship Development Centre** in association with National Entrepreneurship Network (NEN) actively encourages and facilitates students from Arts, Commerce, Science and Management to be self employed as entrepreneurs. Business counselling, entrepreneurship workshops by experts enables students to start their business venture after graduation.

## B.Voc Courses

The B.Voc Programme is a UGC recognized and sponsored three year degree programme with a focus on industry skills and employment. The institution offers the following B.Voc programmes.

**B.Voc in Web and Data Analytics** - Students from Arts/Science/Commerce background are eligible for this course. This degree program has been introduced by the UGC to serve the needs of the IT-ITeS industry for qualified analytics professionals with the skills to provide advisory services to clients across the world. Analytics professionals are currently in high demand from leading companies such as **GENPACT, MuSigma, TCS, Cognizant, Flipkart** etc. The program is particularly suited for students who are interested in working in the IT-ITeS industry and have strong logical and analytical thinking abilities.

**B.Voc in Medical Laboratory Technology** Students from Science background with Biology as an optional subject are eligible for this course. This course is specially designed for students with an interest in Medical Science who would like to pursue careers in the clinical diagnostics industry. Medical Lab Technology professionals are placed in corporate hospitals like **Columbia Asia, Fortis, RMV Hospital, People Tree Hospitals, etc., and Medical Labs like ChanRe Diagnostics, Dr. Lal Path Lab, etc.**

The B.Voc programs are application-oriented and have been designed in collaboration with the industry according to the latest requirements in these high potential sectors. These programs have a summer internship and project component to reinforce the industry integration.

## Co-curricular & Extra-curricular Activities

PUC & UG Students interested in sports are encouraged and facilitated to participate in competitions at University / District / State / National Levels. Professional coaching is provided for the various sports teams.

*Education for Character Formation*

I am one of several MLACW graduates privileged to have belonged to this erstwhile institution dedicated to the education of women, one of the loftiest goals in the world. Even now, I can feel the true affection of the faculty and staff at MLACW. I was delighted with the dedication and genuine personal interest exhibited by every faculty member at MLACW. The wonderful attitude at MLACW really made an impression on me. I wanted to have in my life the same optimism, cheer and joy about my work every single day. I was truly able to carry this attitude of wanting to learn for the rest of my education and beyond, whether during my M.Sc., Ph.D., M.D., M.B.A. or post-graduate training or employment.

**Dr. B.G. SHEELA, Alumni: B.Sc., CBZ - 1983-1986, M.D, Ph.D**

Medical Director, CareCore National, Consulting Nuclear Medicine Specialist, USA.

My entrepreneurship skills started early in my undergraduate days. Our college did not just educate us with books but coached us practical aspects that can be applied in real life. Our teachers at MLACW identified our hidden skills and encouraged us that gave immense confidence and decision-making skills. Being a part of Bioenigma trained us to present ourselves with dignitaries, communicate with confidence, and bring out our inner leadership qualities. I am very proud to be part of this college and proud to be an Ammannian!

**SUPRIYA SHEKAR, Alumni- B.Sc., CZM - 2000-2003**

Co-founder & CEO, Medbiomarkers, Inc. Boston, Ma. USA.

It is a pleasure for me to serve the college in any way I can in my capacity. Here's what I would wish to say to the prospective students who'd wish to enrol for courses at MLACW:

"Your college is the first encounter to the real world post your home and schooling; a place that carves the individuality in you which associates with your identity for the next many many years of your life. It is that place that nurtures you to face the challenges of each day equipping you with the right skills, knowledge and wisdom. Being a proud alumni of MLACW, I vouch for all things gained from the faculty, management and opportunities created at MLACW which have aided me in creating a niche as a thorough professional, and a responsible individual adding value to the society I live in."

**SNEHA CHANDRASHEKAR, Alumni : B.com - 2004-2007**

CEO & Co- Founder, Black & White Tech Writing Solutions (P) Ltd., Bangalore.

The first day at Ammanni College as a computer science student sprung across a plethora of surprises. On one hand, a new, welcoming environment, in the company of fellow students who had taken up different courses, ranging from B.Com, B.Sc., BCA and BA, all under one roof. Our teachers ensured that our understanding and assimilation of the subjects happened seamlessly. Apart from the regular learning, a slew of co and extra-curricular activities in realms such as Networking made our college time more fruitful. Hats off to teachers who left no stone unturned when it came to motivating students and guiding them down the path to excellence and achieving set goals. Heartfelt respect and gratitude to all the teachers of MLACW.

**DHANASHREE R NAGARKATTE, Alumni: BCA-2007-2010**

Senior System Engineer, Infosys Ltd., Bangalore.

I am happy to be a part of Ammanni College. I joined sports (Throwball team) and would definitely like to mention the contribution of our Physical Education Instructor and the coaches. I was one of the Students Association member too. I learnt to lead a team and to manage a number of tasks at a time. Thanks to our Commerce Department who lead me in the right direction. In my Final year, I was recognized for my work and was given a responsible position in the Commerce Students Association too. I am thankful to MLACW for moulding my personality into what I am today.

**KAVITHA K. GOWDA, Alumni : B.Com - 2009-12**

TV Artiste

If someone were to ask me which were the most memorable days of my life I would just go back to the days of my college. Those significant days in **Maharani Lakshmi Ammanni College for Women**.

I came here just like any other simple, ordinary and normal student, with an aim to get a qualification/degree. However, when I walked out from here I walked out with, pride, Values, Morales and knowledge MLACW, not only encourages their students in academics but also in every other activity that benefits one's development. Teachers here helps you from your day one, with academics, exams, activities, events till our placements and offer letter. what more can you ask from an institution?

**ANJANA MENON, Alumni : B.Com - 2009-2012**

Senior Executive, Quality Auditor, Target

My experience at Maharani Lakshmi Ammanni College was remarkable 5 years of life .I completed my PUC in Science and did my Graduation in BCA. The college has always supported students in academics as well as in extracurricular activities. The Computer Science department of the college has excellent faculty and good lab facility. The seamless effort and dedication of the staff shows our academic excellence in securing University Rank every year .Special thanks to the Placement cell of the college for all its efforts in getting the students recruited in reputed companies. So in short I would say by joining Maharani Lakshmi Ammanni College I have got a bright career. Thanks a ton!!

**NIVITHA PK, Alumni: BCA 2010-2013- University VI Rank**

Junior Software Engineer, Tech Mahindra Limited.
